Revitalizing TYM's
Digital Presence for

GLOBAL EXPANSION

The Challenge

TYM, a brand renowned for its premium compact and utility tractors, had reached a crucial crossroads in its growth journey.

While its quality products had earned the brand a strong reputation, its digital presence no longer reflected the innovation and ambition driving its expansion. With low brand awareness in new markets and a website that struggled to meet the expectations of modern customers due to inconsistencies and a lack of comprehensive product information, TYM found itself at a disadvantage.

As TYM prepared to enter new markets, it became clear that a bold, fresh digital strategy was essential—one that would help the brand stand out and foster deeper engagement with key stakeholders.

Previous website - product page

The page features a large image of a red TS100 tractor. To the right, the model name 'TS100' and 'Series 6, Utility Tractor' are displayed. Below the name are 'Power' and 'Hitch Lift Capacity' specifications: '101 ps' and '2889 kg'. A text block describes the tractor's capability to handle tough jobs with maximized productivity. A 'REQUEST QUOTE' button is present. Below the main image are four circular icons representing 'Arable Farming', 'Livestock & Poultry', 'Snow Clearing', and 'Material Handling'. At the bottom, a red banner contains links for 'Technical specification' (with a small image of various attachments) and 'Manuals and catalogues' (with a small image of the tractor). A large image at the bottom shows the tractor in a field with a hay bale, with a callout text: 'Lifting, hauling and moving heavy materials for your operations'. A detailed description of the tractor's features follows.

New website - product page

The page features a large image of a red T4058P tractor in a field. The model name 'T4058P' is prominently displayed with 'NEW' and 'Telematics' badges. Below the name are 'Series 4, Compact Utility Tractors' and a 'REQUEST QUOTE' button. A text block states: '*Coming soon to a dealer near you.' A callout at the bottom left provides information about the tractor's engine: 'T Y M Engine manufacturer', '58 hp', 'Engine power', and 'Hitch lift capacity'. Below the main image, a red banner contains links for 'Build My Tractor', 'Explore Tractor in 3D', 'Technical Specification', and 'Compatible Attachments'. A section titled 'A PREMIUM COMPACT UTILITY TRACTOR THAT DELIVERS POWER AND EFFICIENCY' includes a detailed description of the tractor's features and a 'DOWNLOAD BROCHURE' button. A note at the bottom states: '*The current model is for illustrative purposes only. Available products, features, and specifications may vary depending on your region.' A large image at the bottom shows three different models of TYM tractors: a red tractor with a front loader, a blue tractor with a front loader, and a red tractor with a front end loader.

A **cutting-edge website** to elevate brand presence, expand reach, and drive growth

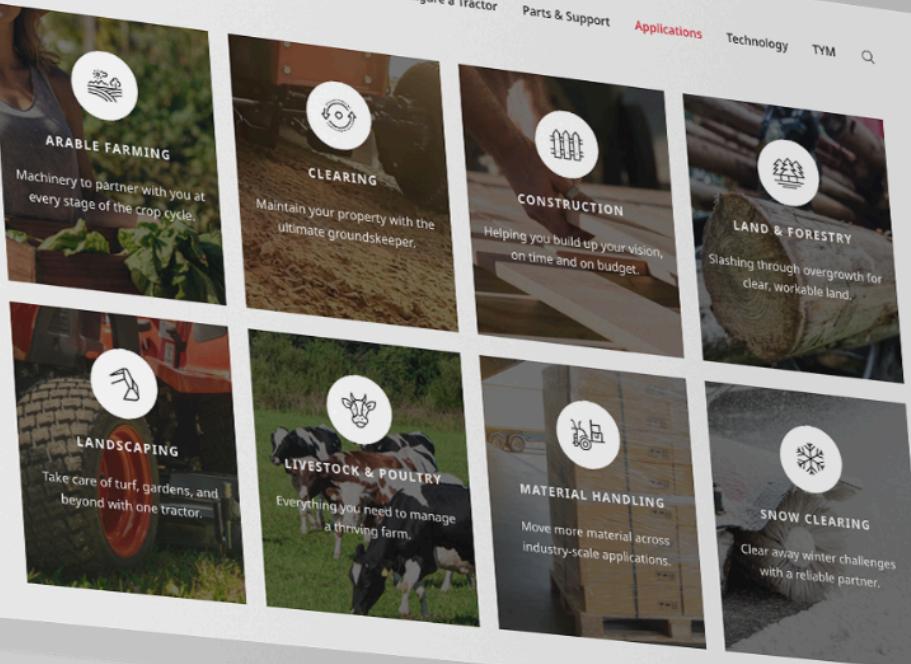

The Solution

MBLM partnered with TYM to create a transformative digital strategy that revitalized the company's online presence and empowered its dealer network to drive sales and engagement. The journey began with rebuilding TYM's website from the ground up, integrating advanced technologies like a headless CMS and state-of-the-art CRM. With refreshed content in both English and Korean, the new site ensured that the brand's authentic voice and product offerings resonated across diverse markets.

Leveraging MBLM's proprietary immersive enterprise solution, PresentationOS, we created an interactive 3D experience, allowing prospects and dealers to engage with tractors in a more dynamic and hands-on manner. The tractor configurator allowed users to customize products, with access to these features both online and on over 300 iPads across TYM's global dealerships. This experience was further enhanced through the award-winning TYM 3D World on the website, offering an unparalleled interactive experience for both prospects and dealers. To further fuel engagement, MBLM implemented a robust inbound marketing strategy, producing over 150 articles that enhanced SEO and steadily increased organic traffic. This content strategy ensured that TYM's message reached customers at every stage of their journey, reinforcing the brand's expertise and commitment to providing valuable, relevant information.

A proactive approach to redesigning the website for an **improved user experience**

Enhanced Dealer Locator Experience: Introduced a dynamic “Find a Dealer” interface, prominently spotlighting Platinum and Gold Preferred Dealers for elevated visibility and streamlined user selection.

Website Architecture Overhaul: Launched a dual-purpose digital ecosystem, segmenting commercial and corporate content to optimize user journeys and align with distinct business objectives.

Immersive 3D Environment Upgrades: Advanced the 3D visualization platform, delivering hyper-realistic, context-rich environments to elevate user engagement and experiential authenticity.

Unified Tractor Navigation: Consolidated tractor browsing into a seamless, single-page interface, enabling effortless exploration of the full product lineup without disruptive page transitions.

**A SUB-COMPACT TRACTOR
ENGINEERED FOR PRODUCTIVITY
INSIDE AND OUT**

The T25 tractor is a proof that great things can indeed come in small packages. Offering enhanced power and performance, the T25 is built for the operator with a powerful engine and ergonomic operator controls, ensuring both performance and comfort.

Double Impact T70

성능은 강력하게, 거치는 안락하게
중형 트랙터의 기준을 높이네.
품질부터 가격까지, 지금 바로 비교해보세요.

LEARN MORE

Superior operator amenities
The T25 tractor's operator amenities are designed to make your work easier. The spacious cab is equipped with a comfortable seat, a steering wheel with multiple functions, and a large display screen for monitoring the engine and other key components.

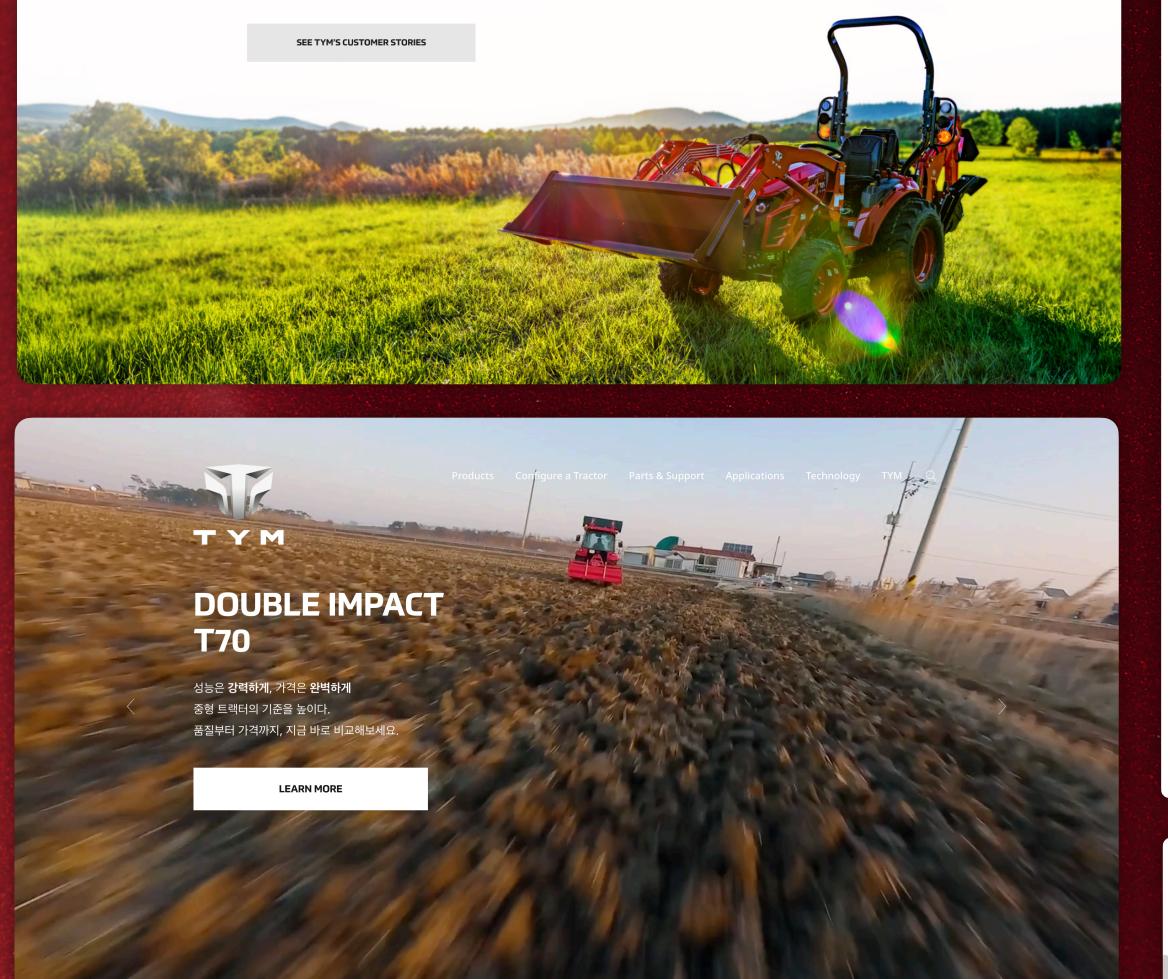

High torque, water-cooled Yanmar diesel engine
The Yanmar engine delivers more torque at lower RPMs than other engines, resulting in faster and smoother operation. The Yanmar engine is also more fuel efficient, resulting in lower operating costs.

High capacity fuel tank for time-intensive work
The T25 tractor's fuel tank allows for longer work periods without the need to constantly stop and refuel. The fuel tank is also designed to be easy to access and refuel.

Customizable rear accessories for every need
The T25 tractor's rear accessories are designed to meet your specific needs. From rear discharge attachments to rear discharge attachments, the T25 tractor has you covered.

Upgraded detailing to reduce operator effort
Packed with value added features to enhance ease of operation, including a new seat design for enhanced grip and stability, and a new steering wheel for improved ergonomics.

Comfortable and secure seating
In addition to a standard rectangular seat, the T25 tractor also features a more ergonomic seat with a built-in headrest and a more comfortable seat belt. The T25 tractor also features a more comfortable seat belt.
